Codex hic advectus ex Aegypto emptus a monast. S. Mariae
matris Dei in deserto Scethin.

menti) *anno* 1727 *Graecorum* (A. C. 1416) *per peccatorem Jacobum pauperem* etc., qui idem compegit eodem anno codicem Musei Britannici, *Add.* 12,143, ut videre est in Catalogo allato p. 623. Demum f. 330 *v.* est nota Doctoris Ambrosianae Bibliothecae Antonii Giggeii († 1634) manu exarata, ut arguo ex scriptura et aliis indiciis: *Codex hic aduectus ex Ægypto, emptus a Monasterio S. Mariæ Matris Dei in deserto Schytin.* Comparatum autem fuisse codicem Bibliothecae initio sec. XVII ante annum 1620 patet ex usu ejus in operibus Cardinalis Federici Borromaei, Bibliothecae fundatoris, et Doctoris Antonii Giggeii. Ille enim frequenter affert versionem Syrae Pescitto in opere *Notae in Duodecim Prophetas minores, Mediolani, an.* 1620, eamque ineditam adhuc ex hoc ipso codice adhibuisse indicat titulus Syrus quem affert versum ad Habacuc III, 1 *Propter eum, qui erravit, vel, Propterea quod erravit;* qui quidem extat in hoc, non in alio codice Ambrosiano *A.* 144-5. *Inf.* Giggeius autem in libro: *In Proverbia Salomonis Commentarij trium Rabbinorum, Mediolani,* 1620, lectionem Syram Latine versam subjecit *ex vetustissimo codice Bibliothecae Ambrosianae;* nec vero alius vetustus codex Pescitto in hac Bibliotheca unquam fuit. Idem Giggeius multus fuit in codice tractando, eique tribuendae ex scriptura notae Latinae passim occurrentes, interdum quidem invenustae paullum. Ne vestigia usus codicis nunc colligam, quae in codicibus Ambrosianae Bibliothecae extant, et raras easque fere jejunas mentiones occurrentes in libris editis, sufficiat nunc dicere J. B. De Rossi in selectis locis eum contulisse tum per se, tum per Doctores Bibliothecae Branca et Bugati, ut ipse indicat *Variae Lectiones V. T.* I, XXXII, CLIX, et a me ipso edita fuisse ex eo Apocalypsin Baruch, librum quartum Esdrae et sextum de Bello Judaico in opere *Monumenta sacra et profana,* t. V.

Conditionem codicis quod attinet, serioris curae vix vestigia alicubi, nisi quod saepe literis additus fuit numerus foliorum quinternionis, ullae notae adscriptae fuerunt lectionum ecclesiasticarum et multae notae capitulorum, quae ultimae partim saltem ex versione Syro-Hexaplari sunt. Conservatio autem satis bona pro codice tantae antiquitatis; maculae quidem passim contractae, et atramentum non raro evanuit; sed non adeo passus est codex, ut non posset photolithographico opere commode edi.

Codex noster non videtur scriptus in usum ecclesiasticum, cum desint notae lectionum, quae solent codicibus Syris in textu vel margine apponi, nec vestigium sit indicis earum praemissi, ut interdum fit in iisdem codicibus. Una vel altera primae manus nota lectionis in textu pro sua raritate videtur ex eo irrepsisse, quod saltem unus alterve liber ex codicibus ecclesiasticis describeretur.

Conditionem textus tractare diligenter nunc ne possem quidem, cum studia necessaria vix inceperim. Ex iis quae hucusque indagavi, textus codicis Ambrosiani est ubi optimus mihi videtur, est etiam ubi aliis cedit vel recentioribus et ipsis editionibus; quamquam hoc in levioribus rebus videtur accidere. Cur tamen pro editione recensita ex collatis codicibus illum nunc integre ederem ea fide, quae maxima est ratione photolithographiae, id causa fuit, quod unus ante Cantabrigiensem sec. fere XI, passum tamen in India plura, continuatum textum V. T. sec. fere VI exhibet. Si autem codices vetustissimi conferantur in Europa extantes, praesertim in Museo Britannico, apparet vix aliquot libros uno fere seculo antiquiores esse Ambrosiano, ceteros vel coaevos esse, vel seriores; vetustiores autem et coaevos simul sumptos nec omnes libros dare, nec in iis quos dant, plane integros lacunis esse omnes. Unicus autem est codex ante XI seculum pro 3 et 4 Machabaeorum, et omnino solus, quantum novi, pro peculiari recensione 1 Machabaeorum, et pro Apocalypsi Baruch. IV libro Esdrae et VI libro de Bello Judaico. Est ergo codex pro Syra Pescitto V. T. fere quod Amiatinus pro Vulgata Latina, et Vaticanus et Alexandrinus pro LXX, et spero editionem talis codicis antiquissimae post illam LXX versionis V. T., ex ratione photolithographica eum summa fide reddentem, acceptam fore omnibus, quibus Sacrae Literae et Syriaca studia cordi sunt. Equidem puto ex aliis praesertim vetustis codicibus collatis cum Ambrosiano sperari posse, ut integritas versionis plurimum juvetur, et si mihi id, nunc quidem vix inchoatum, non concessum fuerit perficere, alii in hac editione praecipuum collationis subsidium invenient, et fundamentum, cui opus recensendi superstruant.

Ratio operis photolithographici eadem fere quam in edendo codice Syro-Hexaplari secutus sum. Photographicas tabulas nec in vitro, nec in lapide tractavit photographus, exemplar ex lapide ipse cum codice conferebam, et ex eo et codice maculas auferebam a lapide, qui ad me deferebatur in Bibliothecam. Initio quidem frequenter, rarissime deinceps ullas maculas codicis sustuli, plerasque in marginibus; verum ubi fieri poterat, omnes sustuli maculas, quae quavis de causa ex opere photolithographico erant. Quod unum damnum incidere potuit, rarissimum quidem, fuit ut quid tenuissimum vel relinquerem maculae, vel literae auferrem, quod tamen literae formam nullatenus laesit. In secundo exemplari si omnes in priori notatas maculas sustulissem inspiciebam, illud legebam, et ubi dubii quid exsurgeret de maculis aliunde quam ex codice inductis, hunc inspiciebam, et si e re erat, eas auferebam. Atramento nihil resarsi omnino, nec unum punctum; si quid a codice deficiat editio, notis reservo supplendum. Quamquam vix alicubi punctum ullum, vix una alterave litera periit tota a pag. 1 ad 136, et rarissime paullum evanidae prae codice sunt literae. Quae evanida plura occurrunt eadem sunt in codice, imo ut plurimum photolithographia evanescentia in codice aliquantulum juvavit, vividiora reddendo vestigia in membrana relicta.

Numeros capitulorum ac versuum appono ex editione Hebraici textus E. van der Hooght, in libris, ubi Hebraeus deest, ex editione LXX Holmes et Parsons, in 4 Esdrae ex Latina versione, et in 4 Machabaeorum ex editione Grabe; in Apocalypsi Baruch sectiones indicabo ex mea editione in Monumentis, et in libro VI de Bello Judaico ex ed. Havercampi.

Notae quae utrique volumini praefigentur, indicabunt conditionem paginarum, ubi e re erit, et defectus vel vitia codicis: supplebunt quae editio evanida in codice non potuit reddere, vel ipsa imperfecte retulit: describent difficilia lectu ex conditione codicis: explicabunt rasuras, correctiones, et seriores curas omnes: demum errata codicis ex aliis corrigent.

PRAEFATIO.

Completa nondum erat editio photolithographica codicis Ambrosiani Syro-Hexaplaris, et jam cogitabam de simili editione codicis aeque Ambrosiani sec. fere VI translationis Syrae Pescitto V. T. Agere igitur coeperam de ea cum Conservatoribus nostrae Bibliothecae; qui quidem, ut priorem codicem ceterasque partes operis mei *Monumenta sacra et profana* sumptibus ac typis Bibliothecae edenda benevole semper curaverant, ita etiam novae editionis impensas se lubenter suppeditaturos esse indicabant. Accidit interea ut Doctori F. Field, S. Joannis Chrysostomi et Hexaplorum Origenis editori celeberrimo, ut fit studiorum communione, consilium meum aperirem; et is favere voluit translationi Syrae Pescitto plus quam fecerat Syro-Hexaplari, et anno 1873 misit libras Anglicas centum. Alacrior ideo rem urgens mense Aprili anni 1874 specimina curavi paranda unius paginae, quae et eundem codicis modulum, et gradatim minorem repraesentarent, ut et ipse considerarem quam rationem seligerem editionis, et judicare de re possent amici, ad quos illa misi. Erat inter hos Doctor W. Wright, Professor linguae Arabicae in Academia Cantabrigiensi et vir maximae in rebus Syris auctoritatis, qui rem cum aliis ejusdem Academiae communicavit, et omnes cum illo censuerunt, optimam fore rationem, qua codex eodem modulo ederetur. Rescripsit de judicio D. Wright, addidit, me fortasse de minuendo modulo cogitasse ut minuerem et impensas, monuit ideo, ne rem festinarem, dicens se curaturum, ut *promotores* et *subscriptores* operi quaereret inter suos cives. Respondi ego ne sollicitudinem hanc sibi sumeret, cum a Conservatoribus Bibliothecae Ambrosianae sumptus editionis praestandos fore jam confiderem; sed is non acquievit, et pro sua auctoritate in hujusmodi rebus a munificis nobilibus et doctis civibus intra annum 1874 partim largitionibus partim subscriptionibus dimidiam impensarum partem totius operis facile coegit, cooperante etiam ejus leviro Doctore R. F. Littledale. His accessit Bibliopola Londiniensis Williams & Norgate, qui honestissimis conditionibus subscriptiones promovere in Anglia sponte suscepit, et satis prospere rem egit. Quo factum est, ut securus editionem maturius quam cogitassem susciperem, idque meo periculo facerem, ut rem quo possem magis urgerem. Nec reticere tamen possum, Conservatores Bibliothecae id mihi benevole concessisse, quia me id perficere posse sine meo detrimento declaraveram; alioquin enim libenter supplere quod deesset erant parati. Operam igitur editionis statim commisi Angelo Della Croce, expertissimo in arte photolithographica, qui ante finem anni 1874 totum codicem foliorum 330 in vitra retulerat; eodemque tempore cura D. Wright et E. M. Thompson relatas in vitra acceperam ex codice Musei Britannici *Add.* 14,427, ejusdem ac Ambrosianus est aetatis, octo paginas quae defectum unius folii istius in Numeris supplerent. Demum ineunte anno 1875 ex photolithographicis tabulis editio inchoata; et nisi difficilior pars codicis esset initium, et casus partim tristes intercessissent, jam anno eodem 1875 haec pars prodiisset. Interim gratias agere hic liceat maximas tum Doctoribus Field, Wright et Littledale, tum ceteris munificis eorum civibus. Istis pro favore quo opus prosecuti sunt, addendi Michael Amari, Robertus L. Bensly et Hermannus Zotenberg.

Codex Ambrosianus *B.* 21. *Inf.* sec. fere VI, membranaceus, fol. 330, altus ex mensura *metrica* 0,36, latus 0,26, continet V. T. translationis Syrae Pescitto hoc ordine: Pentateuchum, Job, Josue, Judices, Samuel, Psalmi, Reges, Proverbia, Sapientia, Ecclesiastes, Canticum Canticorum, Isaias, Jeremias, Threni, Epistola Jeremiae, Epistola I et II Baruch, Ezechiel, XII Prophetae minores, Daniel cum Bel et Dracone, Ruth, Susanna, Esther, Judith, Ecclesiasticus, Paralipomena, Apocalypsis Baruch, I Esdrae (IV apud Latinos), Esdras et Nehemias, Machabaeorum libri V, sed postremus est reapse liber VI de Bello Judaico Flavii Josephi. Desunt 5 folia, Num. III, 23-V, 10, 1 Paralip. XII, 17-XVII, 25, 2 Paralip. XIII, 11-XX, 4, et folio in medio lacerato perierunt voces in Habacuc, II, 8, 9, in Sophonia III, 8, itemque media, antiquitus tamen suppleta, in Habacuc III in v. 4-7, in Sophonia II in v. 9, 10. Vix alibi litera aliqua periit. Ut par est, ex vetustissimis qua potero codicibus hos defectus resarciam. Textus I Machabaeorum usque ad medium caput XIV aliam recensionem habet ab illa codicis sec. VI vel VII Musei Britannici, *Add.* 14,446, quae collata fuit a De Lagarde, et una videtur deinceps obtinuisse.

Ex titulo f. 1 *v.* codex complecturus erat et N. T., sed f. 330 *r.* col. 2 initio post subscriptionem quinque librorum Machabaeorum intermissa est scriptio primae manus, cum doxologia proxime sequens alius manus videatur omnino licet antiquissimae, et tres notae col. 2 et 3 seriores sint, folium autem versum vacuum relictum sit. Haec quidem ex usu codicum Syrorum, qui abundare solent subscriptionibus primae manus, dubium ingerunt, ne opere intermisso unquam N. T. Veteri accesserit.

Ex defectu subscriptionum primae manus origo codicis latet. Nota prior col. 3 fol. 330 *r.* antiquior sec. XI indicabat, ut probabile est, nomen illius qui codicem emerat, sed quatuor lineis et dimidia in medio erasis intrusum fuit *Abdelmessias monachus filius Haitam filii David, magnificet Deus memoriam eorum, ex urbe Damasci.* Nota col. 2. mediae fol. 330 *r.*, et alia in fol. 1. *r.* docent codicem dono datum fuisse Monasterio Deiparae in deserto Scetensi ab Abuali Zacharia filio defuncti Joannis Tagritensi; quem A. C. 1006-7 alios quatuor codices eidem Monasterio donasse notum est ex subscriptionibus eorundem codicum, qui nunc asservantur in Museo Britannico, et describuntur in Catalogo D. Wright, p. 258-69. Ultima nota Syra f. 330 *r.* col. 3. est: *Compactus fuit liber iste Veteris* (Testa-
